

State Fair Band Day Parking Information

Arrival time for Band Day Infield Parking: Gates 6 & 16 will open at approximately 6:00am so that Band Day vehicles may begin entering the fairgrounds. Most other gates will open at 8:00am.

Only band buses, semis and equipment vehicles will park in designated colored parking areas located in the North area of the infield.
 All director, staff, parent and fan vehicles parking in the infield must park in other areas as directed by parking personnel.

The Parking Plan: Seven Band Day Infield Parking Teams on golf carts will meet and assist every band in parking!

1. Every effort will be made to park "performance order, odd numbered" bands on the west side (red & yellow) of the parking grid, the side nearest your warm-up area, and "performance order, even numbered" bands on the east side (green & blue) of the parking grid, for the same reason.
2. Every effort will be made to park bands in Rows 1-6 facing the east, and all other bands in rows 7-20 facing west.
3. *If you plan to depart after your prelim performance and return later to the same parking spaces, please bring markers such as safety cones to mark your parking spaces.
 It will not be the responsibility of the infield staff to save spaces!
